## Our Society

The Haywoods Permanent Way—a local railway society was founded in 1988 by a group of 12 like minded enthusiasts whose diverse interests in railways past and present was considered justification for forming a local railway society. Nowadays members not only come from The Haywoods, but attend our meetings from Rugeley, Stafford and further afield.

Meetings are held locally at regular intervals throughout the year. The venue is the Lamb and Flag public house in Little Haywood, about 8 miles south east of Stafford. We enjoy a wide variety of illustrated presentations by speakers covering many railway subjects and themes. These include mainline, overseas and the preservation scene. Narrow gauge railways are not neglected either. Please see overleaf for details of our current programme.

In early 2002 we expanded into the area of model railways by acquiring a room in Rugeley for work on layouts, locos and models etc.

Other social events are organised at certain times during the year. These include summer visits to railway venues, barbecues, etc.

Our membership fees are reasonable. If you are interested in joining us please complete and return the application form with the relevant subscription. Benefits of membership include free admission to our monthly meetings along with regular copies of our newsletter detailing events and news.

Further information can be obtained from any of the contact names detailed on the front of this leaflet or on the internet at:
